Speyer. One can already hear them from afar and as they get closer, the ground starts to shake. The rhythmic chugging of a Bulldog sounds like music in the ears of many and almost has a calming effect. The fascination for tractors is unbroken, whether young or old, fans from all generations gather at the LANZ Bulldog meet at the Technik Museum Speyer.

On 27 and 28 July 2019, the popular LANZ Bulldog meeting will be held already for the 13th time. What began with a small group of tractor owners is now part of the museum's regular program and is particularly popular with younger visitors. Around 100 tractors and agricultural machines of all brands are present. It offers sightseeing tours for visitors, demonstrations of the vehicles, a skill contest in which the driver drives a slalom course along with their Bulldog, as well as the traditional drive through Speyer with a stop in front of Speyer Cathedral. In addition to the participating tractors, the Süß Rasenmäher-Center GmbH company from Speyer will support the LANZ meeting and present various vehicles

The LANZ Bulldog meet of the Technik Museum Speyer will take place on Saturday 27 July 2019 from 10 am to 5 pm and on Sunday 28 July 2019 from 10 am to 4 pm. The drive is scheduled for both days at 1 pm. The one-hour tour takes the eye-catching vehicle parade through Speyer past Speyer Cathedral and back to the museum grounds. Tickets for the LANZ Bulldog meet are available at the gate for € 5.00 for adults and € 3.00 for children. A regular museum entrance ticket to the Speyer Museum of Technology will give you entry to the event as well.

Anyone who wants to participate in this meeting with a Bulldog, agricultural machine or historical motor can register free of charge at www.technik-museum.de/lanz and is also invited with a guest to the traditional barbecue buffet on Saturday night.

About the Sinsheim-Speyer Museums of Technology – Technology from the ocean's depths to the whole universe

The Sinsheim-Speyer Museums of Technology display more than 6,000 exhibits over more than 200,000 m², covering all areas of engineering history in a variety that is one-of-a-kind in the whole world. From the submarine to the classic car, from Concorde to the BURAN space shuttle, everything is represented here. In addition to the permanent and changing special exhibitions, there are numerous vehicle and club meetings as well as events. Open 365 days a year, the museums attract more than one million visitors a year. The two IMAX large-format cinemas are a special experience. While the IMAX 3D Cinema – "the sharpest cinema in the world" – shows exclusive documentaries and the latest Hollywood blockbusters in Sinsheim, in the IMAX DOME cinema at the Technik Museum Speyer, films are projected onto a gigantic cupola roof. Owned by the non-profit Auto-Technik-Museum e.V., the Sinsheim-Speyer museums of technology have around 3,000 members worldwide. They are financed exclusively through the admission fees, donations, and membership fees of club members. All surpluses are used to preserve the pieces and to expand the museums.
